CAREER OBJECTIVE

As a dedicated backend developer proficient in Laravel, my goal is to leverage my expertise in PHP and Laravel framework to contribute effectively to a dynamic development team. I aim to utilize my strong understanding of backend architecture, database management, and API integration to deliver robust and scalable solutions that meet the needs of clients and end-users. Seeking opportunities to further enhance my skills in software development while actively contributing to the success and growth of a forward-thinking organization.

EDUCATION

Bachelor of Computers and Artificial Intelligence | Fayoum University | 2018-2022.

EXPERIENCE

IT Support Specialist [Elkad Company], [Cairo], [21 - 9 - 2022]

- Provided technical support to end-users, resolving hardware and software issues promptly.
- Installed and configured operating systems, software applications, and peripherals.
- Assisted in the setup and maintenance of networking equipment, including routers and switches.
- Managed user accounts and permissions in Active Directory and LDAP.
- Conducted training sessions for staff on IT best practices and software usage.

Responsibilities

- Develop and maintain complex web applications using Laravel.
- Manage databases and optimize performance with MySQL.
- Collaborate with cross-functional teams to achieve project objectives.
- Ensure quality through performance and security testing.
